

What AI Is Actually Doing to PM Hiring

If you're a mid-level product manager right now, hiring for your role just dropped double digits.

If you're senior and AI-fluent, it's never been better.

Real 2026 data

Not a claim from memory

+34%

Senior AI-PM hiring

-12%

Junior/mid PM hiring

Senior AI-fluent PM hiring is up 34% this year. Junior and mid-level PM hiring dropped 12% over the same period.

61%

Of senior PM postings now require AI fluency

Up from just 23% in 2024. AI fluency went from a nice-to-have to the majority requirement in one year.

@thataipm

**Companies want AI-native PMs.
They're just not building them.
They're hiring for it instead.**
